Intrix Technology Jumps Five Spots on Nilson Report's Top Merchant Acquirers List

Top5 Card Processors 2015

Credit Card Processing Comparisons. See Our Top 5 Ranked Companies Now!

ROSEVILLE, CA--(Marketwired - Apr 13, 2015) - **Intrix Technology, Inc.** (Intrix), a leading payment processor and ISO, announced that for the fifth year it has been named to **The Nilson Report's 2014 list of Top Merchant Acquirers in the U.S.**, and this year comes in at #70, which is five spots higher than its 2013 ranking. With a 14% increase in processing volume, Intrix maintained its position as one of the fastest growing credit card processors in the nation.

Intrix anticipated the rise of consumer demand for the convenience of cashless transactions. By executing a series of strategic acquisitions and implementing creative sales plans, it was able to exponentially grow its revenue base. At the same time it secured a leadership position in the industry by pursuing technological innovations that are simplifying operations for merchants and lowering processing fees.

"The Nilson Report ranking and recognition of our rapid growth confirms our progress in winning market share," said Jeff Connors, chief executive officer of Intrix. "Our strategy to grow transactions through strategic acquisitions and organic initiatives in high-growth channels and verticals is clearly working."

Intrix has become the credit card processor of choice for agents, enterprises and retailers across the country because of its innovative gateway services which include a full tokenization solution for processing payments and storing sensitive payment data. These types of solutions deliver a host of benefits to merchants including the ability to integrate payments with their accounting systems; improve cash flow management; and reduce both fraud exposure and costs associated with PCI compliance. Top Credit Card Processing, the leading provider of independent reviews and ratings in the credit card processing industry, currently ranks the Intrix E Commerce Payment Gateway #2 among all industry gateways.

About The Nilson Report
