Liners Direct has been manufacturing tub to shower conversions, accessible bathing products, and other custom-manufactured bath and shower systems for over 18 years. The custom manufacturing process allows customers to design the new bathtub or replacement shower of their choice in a variety of colors, patterns and added accessories such as grab bars, foot pedestals, soap caddies, shelves and seats.

A Synchrony Bank-issued credit card will be available for qualifying customers for use at select factory-certified dealers of Bathwraps products, allowing cardholders to enjoy special financing options and exclusive offers,* while retailers can benefit

from repeat business and customer loyalty.

Synchrony Financial's Fourth Annual Major Purchase Consumer Study** found that home improvement shoppers conduct extensive research when considering purchases over \$500, spending an average of 97 days, compared to the 68-day average of shoppers in all 13 categories studied.

Synchrony Bank cardholders in the home improvement sector surveyed confirmed the importance of the availability of financing, with 75 percent saying they "always" seek promotional financing when making a large purchase. Forty-four percent of home improvement cardholders surveyed said they would not have made the purchase, or gone to another retailer, had financing not been available.

"The value of a consumer financing program is clear," said Glenn Marino, executive vice president and CEO of Payment Solutions, Synchrony Financial. "We're pleased to work with Liners Direct to help their customers build the bath systems they dream of, while also helping their dealers grow their businesses."

"Adding a financing component to our quality products will provide customers even more flexibility in upgrading their tubs and showers," said Eric Bohner, vice president of Sales for Liners Direct. "Synchrony Financial's valuable insights into the shopping experience will help our dealers provide the right financing options that will help drive traffic and retain customers."

**Conducted in 2015 by a third party, the Fourth Annual Synchrony Financial Major Purchase Consumer Study explores the customer path to purchase and surveyed consumers who had either made, or planned to make a \$500+ purchase in one of 13 categories, including Home Improvement.
