Q2 2019 Caution Regarding Forward-Looking Statements

From time-to-time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media, and others. All such statements are made pursuant to the “safe harbour” provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management’s Discussion and Analysis (“2018 MD&A”) in the Bank’s 2018 Annual Report under the heading “Economic Summary and Outlook”, for the Canadian Retail, U.S. Retail, and Wholesale Banking segments under headings “Business Outlook and Focus for 2019”, and for the Corporate segment, “Focus for 2019”, and as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable), and in other statements regarding the Bank’s objectives and priorities for 2019 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, and the Bank’s anticipated financial performance. Forward-looking statements are typically identified by words such as “will”, “would”, “should”, “believe”, “expect”, “anticipate”, “intend”, “estimate”, “plan”, “goal”, “target”, “may”, and “could”.

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties - many of which are beyond the Bank’s control and the effects of which can be difficult to predict - may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause, individually or in the aggregate, such differences include: credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), liquidity, operational (including technology and infrastructure), reputational,
insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the general business and economic conditions in the regions in which the Bank operates; the ability of the Bank to execute on long-term and shorter-term strategic priorities, including the successful completion of acquisitions and strategic plans; the ability of the Bank to attract, develop, and retain key executives; disruptions in or attacks (including cyber-attacks) on the Bank's information technology, internet, network access, or other voice or data communications systems or services; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information; the impact of new and changes to, or application of, current laws and regulations, including without limitation tax laws, capital guidelines and liquidity regulatory guidance, and the Bank recapitalization 'bail-in' regime; exposure related to significant litigation and regulatory matters; increased competition from incumbents and non-traditional competitors, including Fintech and big technology competitors; changes to the Bank’s credit ratings; changes in currency and interest rates (including the possibility of negative interest rates); increased funding costs and market volatility due to market illiquidity and competition for funding; critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; existing and potential international debt crises; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank’s results. For more detailed information, please refer to the ‘Risk Factors and Management’ section of the 2018 MD&A, as may be updated in subsequently filed quarterly reports to shareholders.

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2018 MD&A under the headings ‘Economic Summary and Outlook’, for the Canadian Retail, U.S. Retail, and Wholesale Banking segments, ‘Business Outlook and Focus for 2019’, and for the Corporate segment, ‘Focus for 2019’, each as may be updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank’s shareholders and analysts in understanding the Bank’s financial position, objectives and priorities, and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time-to-time by or on its behalf, except as required under applicable securities legislation.

1. The Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures to arrive at 'adjusted' results (i.e. reported results excluding "items of note") to assess each of its businesses and measure overall Bank performance. Please see 'How the Bank Reports' section of the MD&A in the First Quarter Earnings News Release for further explanation and a reconciliation of the Bank's non-GAAP measures to reported basis results. Trailing four quarter items of note: Charges related to the long-term loyalty agreement with Air Canada of $446 million after-tax, Charges related with the acquisition of Greystone of $30 million after-tax, Charges associated with Scottrade transaction of $116 million after-tax, amortization of intangibles of $268 million after tax, and impact from U.S. tax reform of $(61) million after tax.
2. See slide 22, footnote 1.
3. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation inasmuch as they do not comment on market price or suitability for a particular investor. Ratings are subject to review or withdrawal at any time by the rating organization.

Diversified Business Mix

Three key business lines
- Canadian Retail: robust retail banking platform in Canada with proven performance
- U.S. Retail: top 10 bank in the U.S. with significant organic growth opportunities
- Wholesale Banking: North American dealer focused on client-driven businesses

The Ready Commitment: Targeting $1 billion in community giving by 2050
The Ready Commitment targets Financial Security
$1 billion by 2050
TD issued the 2018 Ready Commitment Report, one year after the strategy was launched, detailing the impact of TD’s work across the four interconnected drivers of change.

TD published a 2018 SDG report to help measure the impact of The Ready Commitment against the United Nations Sustainable Development Goals (SDGs).

ESG Performance Highlights
TD’s low carbon commitment targets $100B, in total, towards initiatives in low-carbon lending, financing, asset management and internal corporate programs by 2030.

TD is the only financial institution globally to participate in all three of the United Nations Environment Programme Finance Initiative (UNEP FI) Task Force on Climate-related Financial Disclosures (TCFD) pilots on lending, investment and insurance.

Issued a US$1B green bond in 2017, one of the largest green bonds ever issued by a bank. TD Securities has participated in underwriting over $15B in green bonds since 2010.

89% of employees agreed that TD is doing the right things to make a positive impact on the communities in which it does business.

Recognized by external ratings organizations, including the Bloomberg Gender Equality Index, Great Place to Work Institute, and DiversityInc.

High performer in sustainability indices, including the Dow Jones Sustainability Index, FTSE4Good, Sustainalytics and CDP.

Risk management is embedded in TD’s culture and strategy; we only take risks we can understand and manage.

TD’s 2018 Environmental, Social and Governance Performance Report was released on May 7, 2019.

1. Effective Q1/09 ratios exclude Debt Securities Classified as Loans and Acquired Credit Impaired.

Effective November 1, 2017, the Bank adopted IFRS 9, which replaces the guidance in IAS 39. The Bank has made the decision not to restate comparative period financial information and has recognized any measurement differences between the previous carrying amount and the new carrying amount on November 1, 2017 through an adjustment to opening retained earnings. As such, fiscal 2018 results reflect the adoption of IFRS 9, while prior periods reflect results under IAS 39.

1.7% 1.6% 1.7% 1.5% 1.5%

Hi-rise condo construction loans stable at ~1.1% of the Canadian Commercial portfolio
1. Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the ‘all-in’ methodology. The CVA capital charge was being phased in until the first quarter of 2019. For fiscal 2018, the scalars for inclusion of CVA for CET1, Tier 1, and Total Capital RWA were 80%, 83%, and 86%, respectively.

2. Effective in the second quarter of 2018, OSFI implemented a revised methodology for calculating the regulatory capital floor. The revised floor is based on the Basel II standardized approach, with the floor factor transitioned in over three quarters. The factor increases from 70% in the second quarter of 2018, to 72.5% in the third quarter, and 75% in the fourth quarter. Under the revised methodology, the Bank is no longer constrained by the capital floor.

TD TLAC Requirements

- Canadian D-SIBs will be required to meet their regulatory TLAC requirements by the November 1, 2021 implementation date.

- OSFI has stipulated that D-SIBs will be subject to 2 supervisory ratios:

TD Regulatory Capital Ratios

Notional

TLAC: 27.62%

Minimum risk-based TLAC ratio: 25.25%

1. Minimum risk based TLAC ratio: 23.25%

(21.50% + 1.75% Domestic Stability Buffer)

2. TLAC leverage ratio: 6.75% Risk-based TLAC Ratio: 17.29% 1.45%

TD expects to meet the TLAC supervisory ratios by the implementation date in the normal course without altering its business as usual funding practices.

Unlike other jurisdictions, Canadian D-SIBs 12.00% cannot elect to issue non bail-in unsecured senior debt.

CET1 Additional Tier 2 Senior Total TLAC Legacy 2

Tier 1 Debt Required Senior Debt

2. Includes senior unsecured debt outstanding with an original term to maturity of 400 or more days and a remaining term to maturity greater than 1 year.

Subordinated Debt and Preferred Share ratings are as at January 31, 2019. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation inasmuch as they do not comment on market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.

In the context of subordinated debt and preferred share ratings, Canadian peers defined as RY, BNS, BMO and CM.

Robust Liquidity Management

Liquidity Risk Management Framework

- Target a 90-day survival horizon under a combined Bank-specific and market-wide stress scenario, and a minimum buffer over regulatory requirements prescribed by the OSFI Liquidity Adequacy Requirements (LAR) guideline.
- Manage structural liquidity exposure by match funding to asset term or market depth.
- We maintain a comprehensive contingency funding plan to enhance preparedness for recovery from potential liquidity stress events.

TD Economics Update

Global: At a crossroads

- Our global growth outlook for 2019 is set at a subdued 3.2%. The improvement in global financial conditions so far this year is set against ongoing heightened uncertainty on the international trade front.
• Signs of recovery are becoming more widespread, but activity is stabilizing at a low rate, leaving little room for error.
• Trade uncertainty and geopolitical tensions remain significant near-term risks that could weaken global financial sentiment and economic growth prospects.

U.S.: Outperformance, but risks loom
• Economic growth in the first quarter of 2019 registered an unexpected 3.2%, bumping our 2019 annual average to 2.6% (+0.2%). Real GDP is expected to gravitate towards 2.0% for the second half of 2019 and for all of 2020 as capacity constraints bind and fiscal policy becomes a drag.
• The trade war with China remains a sizable downside risk particularly for business investment. Recent tariff escalations have left a drag on business sentiment despite ongoing U.S.-China negotiations. This could shave as much as 0.5 percentage points from economic growth over the next year.

Canada: Faith in fundamentals
• A weak handoff from 2018 and soft start to the year maintain our 2019 real GDP outlook at 1.2%. As a number of growth headwinds ease however, we expect an expansion to begin in the second half of 2019 cumulating in 1.8% real GDP growth for 2020.
• Strong employment numbers to begin the year indicate underlying economic health despite soft GDP print.
• The housing outlook is a point for optimism as recent data points to stabilization and easier financial conditions and federal policy initiatives support demand.

Interest Rate Outlook

| Interest Rates, Canada and U.S. | The Federal Reserve remains in a "wait-and-see" stance given domestic and global uncertainty. |
| (%) | Forecast |
| U.S. Federal Funds | TD Economics anticipates the Fed to hold its policy rate at 2.50% for the foreseeable future. |
| Bank of Canada | The Bank of Canada has adopted a cautious position in face of uncertainty and mixed economic data. Given this environment, we expect the policy interest rate to remain at 1.75% over the forecast horizon. |

No rate hikes anticipated in the foreseeable future

Highlights
- Continued good asset quality in U.S. Personal
- Gross impaired loans decrease primarily due to:
  - A reclassification to performing for certain U.S. HELOC clients current with their payments
  - Seasonal trends in the Credit Card portfolio

1. Excludes acquired credit-impaired loans.
2. HELOC includes Home Equity Lines of Credit and Home Equity Loans.

1. As announced by OSFI on May 23, 2019, effective August 1, 2019, the OSFI limit equals (total assets pledged for covered bonds) / (total on-balance sheet assets) ≤ 5.5%

43

TD Global Legislative Covered Bond Program

TD Covered Bond Programme Highlights
  • TD has a C$50B legislative covered bond program
  • Covered bonds issuance for Canadian issuers governed by CMHC-administered guidelines
  • Only uninsured Canadian residential real estate assets are eligible, no foreign assets in the pool
  • Covered pool is composed of 100% amortizing mortgages
  • Strong credit ratings; Aaa / AAA
  • TD has ~C$37.9B aggregate principal amount of legislative covered bonds outstanding. Ample room for future issuance under current OSFI limit and revised OSFI limit effective August 12
  • Effective January 2017, TD joined the Covered Bond Label and commenced reporting using the Harmonized Transparency Template

Cover Pool as at April 30, 2019
  • High quality, conventional first lien Canadian Residential mortgages originated by TD
  • All loans have original LTVs of 80% or lower. Current weighted average LTV is 56%
  • The weighted average of non-zero credit scores is 775

1. Ratings by Moody’s and DBRS, respectively. For the Covered Bond program, as at April 30, 2019. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation inasmuch as they do not comment on market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.

2. Total assets are determined in accordance with the OSFI letter dated December 19, 2014 related to the Revised Covered Bond Limit Calculation for deposit-taking institutions issuing covered bonds.

3. The Covered Bond Label Foundation and its affiliates are not associated with and do not approve or endorse TD’s covered bond products.

4. Current Loan to Value is calculated with the Teranet-National Bank House Price Index and weighted by balance.

Bail-in Implementation

Regulation Overview

- On April 18, 2018, the Government of Canada published final regulations under the CDIC Act and the Bank Act providing details of the bank recapitalization ‘bail-in’ regime and final Total Loss Absorbing Capacity (TLAC) guideline.
- The issuance regulations under the Bank Act and the conversion regulations under the CDIC Act came into force on September 23, 2018.
- All Canadian Domestic Systemically Important Banks (D-SIBs) will have to comply with the TLAC guideline by November 1, 2021.
- The legislation builds on CDIC’s existing resolution toolkit to allow it to take temporary control of a failing D-SIB and grants CDIC statutory powers to convert certain of the D-SIB’s qualifying debt into common shares of the bank at the point of non-viability.
- Pursuant to the TLAC guideline, the Bank is subject to a minimum risk based TLAC ratio of 23.25% of RWA (21.50% plus a 1.75% Domestic Stability Buffer).

46

Bail-in Overview

Scope of Bail-in

- In Scope Liabilities. Senior unsecured long-term debt (original term to maturity of 400 or more days) that is tradable and transferable (has a CUSIP, ISIN or other similar identification) and issued on or after September 23, 2018. Unlike other jurisdictions, Canadian D-SIBs cannot elect to issue non bail-in unsecured senior debt.
- Excluded Liabilities. Bank customers’ deposits (including checking accounts, savings accounts and term deposits such as GICs), secured liabilities (e.g., covered bonds), ABS or most structured notes.
- All in scope liabilities, including those governed by foreign law, are subject to conversion and must indicate in their contractual terms that the holder of the liability is bound by the application of the CDIC Act.
